Yes I would like to have a call but I am slammed this week. How does next week look for you both?

Thanks for reaching out

Chris

Good morning Chris,

I wanted to let you know that I will be leaving Tetra Tech to take a position with EPA. My last day at Tetra Tech will be January thirteenth. I am currently in the process of transitioning my projects, including Shiloh Church Road Removal Sampling Data Management, to new project managers. **Nonresponsive based on revised scope** will be taking over as project manager for Shiloh.

 is a Professional Geologist with a Master of Arts in Geology from Temple University and 20+ years' experience in the environmental consulting industry. He has exceptional knowledge of all roles from field technician and sampling techniques to management and document preparation.

 is a recent hire for Tetra Tech but with his wealth of experience he will have a great impact on the START contract, going forward. This let me know if you'd like to have a call with Joe and myself to go over the project and bring Joe up to speed on the site and what the new year holds for work on the site, in the coming weeks.

Thanks,
